Objective

Computer Science student (CGPA 9.04) seeking Software Developer Internship. Delivered three production applications using React, Python, and SQL. Ranked ninth in ICPC 2025. Proficient in JavaScript, Python, C++, data structures, algorithms, and cloud platforms. Eager to contribute technical skills in agile development environments.

Education

Krishna Institute of Engineering and Technology, Ghaziabad **Expected: June 2028**
Bachelor of Technology in Computer Science and Engineering *CGPA: 9.04 out of 10*

- **Relevant Coursework:** Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning, Data Analytics

Technical Skills

Languages: JavaScript, Python, C++, C, Java, Dart, SQL, TypeScript, HTML5, CSS3
Web Technologies: React.js, Flask, Node.js, Express.js, REST APIs, Responsive Design
Databases: MySQL, MongoDB, PostgreSQL, Supabase, Query Optimization
Tools: Amazon Web Services, Git, GitHub, Docker, Vercel, Linux, Tableau, Pandas, NumPy
Skills: Data Structures, Algorithms, Object Oriented Programming, Agile, Scrum, System Design, Machine Learning, Team Collaboration

Projects

Smart Home Bill Manager GitHub | Live

- **Team Size:** 1 | **Duration:** February 2026 – March 2026
- *Technology Stack: React, Supabase, JavaScript, HTML5, CSS3*
- Architected full stack application for household bill management with real time tracking, reducing manual effort by sixty percent for over fifty users
- Configured secure authentication and role based access control, maintaining ninety nine point nine percent availability
- Integrated artificial intelligence powered insights, enhancing financial awareness by forty percent with ninety five Lighthouse score

Heart Disease Data Analysis Platform GitHub | Live

- **Team Size:** 4 | **Duration:** January 2026 – February 2026
- *Technology Stack: Python, Flask, Tableau, MySQL, Pandas, NumPy*
- Constructed healthcare analytics platform processing over one thousand patient records with eighty five percent prediction accuracy
- Engineered MySQL database with five normalized tables, accelerating query response by fifty percent
- Generated ten interactive Tableau dashboards for healthcare professionals

Stock Portfolio Website GitHub

- **Team Size:** 1 | **Duration:** October 2025 – November 2025
- *Technology Stack: React, JavaScript, HTML5, CSS3, Chart.js*
- Established responsive application for stock trading and portfolio management supporting over twenty concurrent users
- Integrated real time stock data with Chart.js visualization refreshing every five seconds
- Programmed authentication and profile management, boosting retention by thirty five percent and reducing load time by forty five percent

Co-Curricular Activities

Developed an web app at Smart India Hackathon 2025 **January 2025**
PlaytoGrow Educational Gaming Platform *College Level*

- Spearheaded full stack educational gaming platform using React and Node.js serving over one hundred users
- Executed gamification features including points, leaderboards, and badges, increasing engagement by fifty percent
- Partnered with four member team using Agile to deliver minimum viable product in thirty six hours

Certifications

- **Amazon Web Services Certified Cloud Practitioner** (March 2026) – Validation: 66ef60da9c3945fd9d6e3563f29c234f
- **Cisco Networking Academy Certified in Networking Essentials** (Apr 2026) – Credential ID: ec833c3f-b21a-4d62-b1c4-f56a850a3700
- **Model Context Protocol: Advanced Topics Certification** (May 2026) – Certificate No: 53phwi6p26ta

Achievements

- **Ninth Rank in ICPC 2025** at KIET (November 2025) – Top ten among fifty teams, recognized by director
- **CGPA 9.04 out of 10** (Top five percent) – Consistent excellence across four semesters
- Solved over two hundred problems on LeetCode, CodeChef, and Codeforces platforms
- Participated in HackwithMAIT 6.0, Code Slayer 2k25 (NIT Delhi), Smart India Hackathon 2025
- **Languages:** English (Fluent), Hindi (Native), Japanese (Basic)
